3.	Solving of assigned issues
4.	Communication skills
5.	

Company: Pending Supervisor: Pending

#### **Insurance**

If the internship takes place in a company in Denmark, the internship is covered by the act on worker's compensation (lov om arbejdsskadesikring), cf. executive order no. 937 from 26 November 2003, and by the act on liability for damages (lov om erstatningsansvar). This means that if the internship takes place in a company in Denmark, the student must be covered by the company's worker's compensation and liability insurance.

If the internship takes place in a company outside Denmark, then it is the student's responsibility to examine and assess whether he or she can be covered by the company's insurances. In cases where the student is not covered by the company's insurances, the student must make sure to take out any insurance necessary.

#### Salary

The company has no obligation to pay the student.

#### **Declaration of secrecy**

The student and the internship counsellor at the business academy commit themselves to maintain full descretion concerning all commercial aspects regarding the company's activities, products, employees, competitors etc. that they might get in posession of in relation to the internship and the internship report. This also applies after the internship has ended.

If a written report is confidential, it is the student's responsibility to communicate this clearly. This is done by writing 'Confidential' on the report's cover, and furthermore, this should be done in accordance with the formal guidelines for the examination in question.

### **Intellectual property rights**

Intellectual property rights produced by the student in connection with the internship will automatically be transferred to the company without compensation. This applies unless other agreements have been made between the student and the company.

## Illness

If the student becomes ill the company must be notified immediately. In case of protracted illness (more than one week) the business academy must be notified in order to assess whether the internship period should be extended.

#### Holiday

As a general rule the intern cannot be on holiday during the internship period.

#### The agreement's period of validity

The agreement is not valid until the objective of the internship and the tasks are finally approved by both the company and Business Academy Aarhus.
